

COSTS OF ULTRASOUND EXAMINATIONS, RESEARCH, DONE IN THE ANIMAL FACILITY

VEVO 3100 & HD11XE

Prices in effect: April 29, 2020

Cost is the rate per hour of use.

Funded Project	Fees for using devices	
	VEVO 3100	HX11 XE
Industry-funded project	80\$ for a four-hour block 85\$ for a one-hour block	40\$ for a four-hour block 45\$ for a one-hour block
Peer-reviewed funded project	25\$ for a four-hour block 30\$ for a one-hour block	10\$ for a four-hour block 15\$ for a one-hour block
In-house project	25\$ for a four-hour block 30\$ for a one-hour block	10\$ for a four-hour block 15\$ for a one-hour block

Important :

1. Reservations must be made in advance on the intranet.

For time slot booking, please contact isabelle.fortin@criucpq.ulaval.ca by giving this information:

- Name
- Extension # to being contacted
- Name of the researcher and protocol # for billing
- Reservation period

2. If the device is used without prior arrangement or in urgent cases (need to have the echocardiography on a sick animal) without notifying the platform manager before the examination, or within 24 hours, double the forecast price will be charged.

3. If a slot reservation is not cancelled and not used, or if the use of the device is shifted according to the booking without having notified the platform manager (24 hours delay), you will be billed twice.

4. When you are cancelling:

The platform manager must be notified at least one week ahead of time for not having applicable fees.

If that is not the case, ½ of the tariff rate is applied. If a cancelled time slot is being filled by another user, there is no penalty fee in any event.

5. If the device, probes, tables, etc., are not stored and cleaned, a notice is sent for the first time and a cost equivalent to one hour of use is charged for subsequent times.

6. On reservations for more than five hours, you will need to specify if you are taking a lunch break, so this hour will be subtracted by keeping the rate for four-hour blocks.
